Pacific Institute *for the* Mathematical Sciences

Hyperplane Arrangements and Applications

8 - 12 AUGUST, 2011
University of British Columbia

This conference is held in honour of Hiroaki Terao on his 60th birthday.

This conference will highlight current research in hypergeometric integrals, differential forms and derivations on divisors and combinatorial, algebraic, geometric and topological aspects of hyperplane arrangements, and their applications.

Speakers:
Alejandro Adem (U. of British Columbia)
Kazuhiko Aomoto (U. of Nagoya)
Christos Athanasiadis (U. of Athens)
Ryan Budney (U. of Victoria)
James Carrell (U. of British Columbia)
Daniel Cohen (Louisiana State U.)
Joseph Kung (U. of North Texas)
Gus Lehrer (U. of Sydney)
Anatoly Libgober (U. of Illinois - Chicago)
Daniel Matei (IMAR, Bucharest)
David Mond (U. of Warwick)
Yasuhide Numata (U. of Tokyo)
Richard Randell (U. of Iowa)
Kyoji Saito (IPMU, Tokyo)
Mario Salvetti (Università di Pisa)
Richard Stanley (Massachusetts Institute of Technology)
Mathias Schulze (Oklahoma State U.)
Akimichi Takemura (U. of Tokyo)

Organizers:
Takuro Abe (Kyoto U.)
Michael Falk (Northern Arizona U.)
Max Wakefield (US Naval Academy)
Masahiko Yoshinaga (Kyoto U.)
Sergey Yuzvinsky (U. of Oregon)

Scientific committee:
Alejandro Adem (U. of British Columbia)
Graham Denham (U. of Western Ontario)
Toshitake Kohno (U.of Tokyo)
Peter Orlik (U. of Wisconsin)
Hal Schenck (U. of Illinois)
Alex Suciu (Northeastern U.)

THIS CONFERENCE IS SUPPORTED BY KEN TERAO AND THE FOLLOWING ORGANIZATIONS:

Pacific Institute *for the* Mathematical Sciences

NSF

JAPAN SOCIETY FOR THE PROMOTION OF SCIENCE · FOUNDED 1932 ·
